Installation instructions, accessories

Volvo Car Corporation Gothenburg, Sweden

INTRODUCTION

Read through all of the instructions before starting installation.

Notifications and warning texts are for your safety and to minimise the risk of something breaking during installation.

Ensure that all tools stated in the instructions are available before starting installation.

Certain steps in the instructions are only presented in the form of images. Explanatory text is also given for more complicated steps.

In the event of any problems with the instructions or the accessory, contact your local Volvo dealer.

1

Turn the ignition key to position 0.

Note!

Wait at least five minutes before disassembling the connectors or removing other electrical equipment.

2

J8504581

Remove the door handle's interior panel

Carefully prise loose the door handle's small interior panel by positioning a weatherstrip in the joint between the top and bottom sections, centered between the three retaining catches.

Removing the door handle panel with door module

Illustration A

Carefully prise around the door handle panel with door module so that the six clips release and the cosmetic panel releases from the door panel.

Illustration B

Pull up the panel with door module and unplug the connector on the bottom.

Removing the door module

Remove the four screws holding the door module at the panel.
Remove the door module.

5

Installing a new cosmetic panel

Take the new panel from the kit and fasten the door module to it.

Connect the door module connector.

Press the new panel with door module into place. Make sure all catches engage.

Refit the small interior panel.

6

Repeat steps 2-5 for the other door.
