Installation instructions, accessories

Volvo Car Corporation Gothenburg, Sweden

INTRODUCTION

Read through all of the instructions before starting installation.

Notifications and warning texts are for your safety and to minimise the risk of something breaking during installation.

Ensure that all tools stated in the instructions are available before starting installation.

Certain steps in the instructions are only presented in the form of images. Explanatory text is also given for more complicated steps.

In the event of any problems with the instructions or the accessory, contact your local Volvo dealer.

Note!

Some steps in these installation instructions are presented with illustration only.

Note!

On cars with a subwoofer, a fibre optic adapter cable is required to be able to connect the satellite receiver.

Fold up the luggage compartment floor.

Pull it from the mountings at the front edge.

Pull out the luggage compartment floor and the storage box slightly to access the area behind the backrest.

Note!

Note the luggage compartment floor's gas strut.

3

IMG-261926

Steps 3-6 apply to cars with subwoofer

Remove the rear plastic nuts for the subwoofer.

Fold the backrest forward.

Take the fibre optic adapter cable (1) from the kit and connect both the male connectors to the Subwoofer, respectively, Sirius unit.

Connect the male connector (2), which was previously disconnected from the Subwoofer, to the female connector (3) in the fibre optic adapter cable.

Connect the remaining power supply cable to the Subwoofer. Ensure that all cables are positioned to prevent them from being cut off.
