

Product guide

This is a guide that explains how the information on the accessory website is constructed. This is to make it as easy as possible for you to get the information that you are looking for.

Partner group

Partner group is a collective name for a number of markets that have been combined in one area. AME = North America EUR = Europe INT = International Misc NOR = Nordic Countries

Country codes

Country codes for the relevant countries are stated according to ISO 3166-1, for example SE for Sweden, DE for Germany and US for USA.

Chassis number

Some of the product offers must be governed by a chassis number, for example if the vehicle was modified during in the middle of the model year.

VIN code (Vehicle Identification Number) is the manufacturing number, which each manufactured vehicle receives as identification, also called the chassis number (Ch).

The number series for the chassis number may differ depending in what factory the vehicle was manufactured. The eleventh character of the VIN code indicates which factory built the vehicle according to Volvo's (manufacturer's) list.

1. The profile selected for the vehicle is shown here. This is used to filter the information, so that only accessories that fit the selected profile are shown.

2. Search box where it is possible to search for different accessories by entering all or part of their title. The search is based on the selected profile. It is also possible to search for different accessories for all car models by checking the box "Search all models".

3. Title that gives the accessory's designation.

4. Operation number that refers to the Volvo Standard Time Guide. This number indicates how long it takes to install the accessory. No Op. no. is stated for products that the customer installs themselves.

5. The accessory's part number and any criteria that apply to the relevant accessory are shown here.

6. A plus sign in front of the product means that it is a supplementary product. It is required in order to have a complete and functioning accessory.

7. Mounting instructions that can be downloaded or opened in HTML or as a PDF.

8. Recommended accessories for the product.

9. Photo number that refers to Volvo's image database Content store.

10. Note-box that contains important information such as, for example, warnings, cautions or specific legal requirements.

11. Footnote with supplementary information.

12. The date indicates when the product page was last updated.

The screenshot shows the Volvo accessories website interface. At the top, there are navigation menus for 'Cars' and 'Services', and the Volvo logo. Below the navigation is a search bar with the text 'Search Accessories' and a magnifying glass icon. To the right of the search bar is a checkbox labeled 'Search all models'. Below the search bar are several category buttons: 'Safety & Security', 'Comfort & Convenience', 'Tech & Sounds', 'Exterior Styling', 'Interior Styling', 'Wheels', 'Performance', and 'Pack & Load'. The 'Wheels' button is highlighted. Below the category buttons are two sub-categories: 'Complete Summer Wheels' and 'Complete Winter Wheels', with a 'Rim' link. The main product title is '22" 20-Spoke Black Diamond Cut Alloy Wheel – 800147'. To the left of the title is a navigation arrow and a callout box with the text 'Op. No.: 77104'. Below the title is a description: 'This wheel's elegant spokes give your car a more stylish and personal look. For more information about Volvo's aluminium wheel rims, see the Accessories web. [Aluminum rims, general description](#)'. To the right of the title is another navigation arrow. Below the description is a table with two columns: 'Part. No.' and 'Description'. The first row has '32207757' and 'Installation instruction'. The second row has '+ Hub cap', '31471435', and 'Silver'. Below the table is a plus sign followed by the text '+ Application, speedometer, steering gear and tyre dimensions'. Below this is 'Part. No. 32270049'. To the right of the table is a large image of the alloy wheel. Below the image are social media icons for Facebook, Twitter, and Email. Below the social media icons is a button labeled 'Add to wish list'. Below the image is a section titled 'Recommended accessories:' with a link to 'Locking wheel bolts'. Below this is a section titled 'Technical data' with a table of specifications: Aluminum rims: 9 x 22", Colour code: 019 (Black), Accessory weight: 18.5 kg (41 lbs), Recommended tyre size: 275/35 R22 104W XL VOL, Offset: 38.5 mm, Photo: VCC13226. Below the technical data is a yellow note box with the text: 'Note! If the car is fitted with 235 mm wide tyres from the factory, this wheel must be used in combination with [Fender extension](#)'. Below the note box is another yellow note box with the text: 'Note! Not recommended in combination with snow chains.' Below the note boxes is a section titled 'Footnote' with the text: '1. When changing to new wheel dimensions, new software must be downloaded. Updates speedometer, steering gear and tyre dimensions. Ordered according to separate procedure and downloaded using VIDA.' At the bottom right of the page is a date indicator: '12 Last updated: 8/6/2019'.
