Four steps to get started with Peksunny DVR IV

**Step 1:** Install the product in vehicle

Step 2: Install DVR On Road on smartphone from App store

Step 3: Find PS_DVR IV_XXXX [1] in list of WLAN in Settings of smartphone and use pin code [2] to make the connection

Step 4: Enter the APP to start journey with DVR IV

[1] If 5G Hz Wi-Fi is selected for DVR IV, the ID of hotspot of DVR IV will appear as "PS_DVR IV_XXXX_5G", and "XXXX" is a 4-digit string with number and letter combined.
[2] The initial pin code is "1234567890", which is strongly suggested to be changed in the app by the user oneself.
