INTRODUCTION

Read through all of the instructions before starting installation.

Notifications and warning texts are for your safety and to minimise the risk of something breaking during installation.

Ensure that all tools stated in the instructions are available before starting installation.

Certain steps in the instructions are only presented in the form of images. Explanatory text is also given for more complicated steps.

In the event of any problems with the instructions or the accessory, contact your local Volvo dealer.

Preparations

1

IMG-265385

Preparations

Remove the front and rear wheels on one side.

Installation instructions, accessories

Volvo Car Corporation Gothenburg, Sweden

2

Drill out the pop rivet at the rear edge of the door sill panel and the rear pop rivet in the wing extender. Use a Ø6 mm (15/64") drill bit.

Remove any swarf and rivet residue.

IMG-265386

3

Carefully turn out the lower edge/rear edge of the front end of the wing extender.

Note!

Do not turn excessively so that the tape at the front edge detaches.

Remove the clip holding the rear end of the door sill panel.

14

Press the rubber strip onto the new panel.

IMG-265398

15

Align the door sill panel ends under the wing extenders.

Press the front section clips into place.

Press the panel with the rubber strip along the body side.
Ensure that all clips engage and that the rubber strip is correctly positioned.
